

## **MORE SECURE SYSTEM CASE STUDY**

### **Challenge:**

A leading workforce development staffing organization had security and efficiency issues inherent in its current paper-based screening process.

### **Solution**

KENTECH proposed HireStaff an easy to use flagging pass/fail system that reduce the need to look at every record result manually thus allowing no hits 'pass' record to proceed quicker with the intake procedure saving time and dedicated man hours.

### **Results**

A leading workforce development staffing organization eliminated the security and efficiency issues inherent in its paper-based screening process by implementing the ekentech.com web-based report management system and Report Scoring System for automated "pass/review" report grading as well as record guidance utilize KENTECH's award winning arrestfree.com service.
