

DELIVERING AN EFFICIENT IMPLEMENTATION

Unify your end-to-end recruiting experience with the KENTECH and iCIMS Prime Background Screen Connector. With access to order, run and view results from within the iCIMS Platform, you can hire quality employees more efficiently and quickly, saving your organization time and money. You'll also provide a more positive candidate experience.

The iCIMS Prime Background Screen Connector integration allows you to order KENTECH background checks for local or international locations with just a few simple clicks. As a recruiter, you can create your own screening packages and capture all information from the candidate necessary to request a background check smoothly. With 79 data fields transferring through the integration, recruiters can look forward to reduced duplicate entry increasing accuracy and boosting efficiency. Candidate information transfers from iCIMS to the background check form, reducing duplicate data entry, administration and time. Once the order is submitted, a summary of background check results will appear.

Future KENTECH solution enhancements ensure maximum long-term ROI for numerous iCIMS and KENTECH mutual customers, allowing you to better leverage your investment in recruiting and background screening solutions.

Integration Advantages:

Single platform
Streamlines ordering

Data population
Eliminates duplicate entry

Change tracker
Alerts recruiter to differences in candidate-provided information

Status updates
Ensure a timely and transparent process

Mobile-optimized
Candidates can complete background checks using their preferred device

Integration support and automatic updates

About KENTECH

KENTECH is a leading global provider of technology-driven workforce risk management and compliance solutions. We provide comprehensive background screening, verification, identification, monitoring, and drug and health screening services for approximately 37,000 customers across the globe. We offer our services via a unified global software and data platform that tightly integrates into our customers' human capital management systems enabling highly effective and efficient workflows for workforce hiring, onboarding, and monitoring. In 2022, we screened over 24 million job applicants, employees and contractors for our customers and processed over 107 million screens.
