

INTEGRATIONS DONE RIGHT

- **Productized integration**
- **Real-time order and screening status**
- **Configurable account and notification setup**

Recruiting top talent is critical for the success of any organization

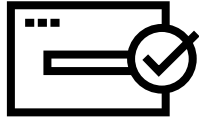

KENTECH has partnered with KPA and built an integrated solution to consolidate critical recruiting and background screening requirements into a seamless solution to deliver convenience, control, faster results, and better quality of hires.

The integrated solution provides comprehensive features to seamlessly manage a background screening program within KPA Hire. It supports key use cases for order management, transaction management and result management. Through a single interface, recruiters can order KENTECH background checks and/or drug tests for domestic or international locations with just a few simple clicks within KPA.

Candidate information transfers from KPA to the background check form reducing duplicate data entry, administration and time. In addition, real-time updates are provided that allow organizations to view results from each individual search (including package searches) as they are completed.

Our integration is easy to implement, with no middleware or development required. Future KENTECH solution enhancements ensure maximum long-term ROI. KENTECH's dedicated integration team of experienced pre-sales and technical consultants work closely with you to ensure an efficient implementation.

Integration Advantages:

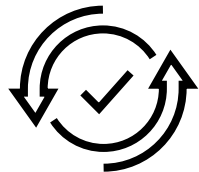

Streamlined ordering

Single sign on

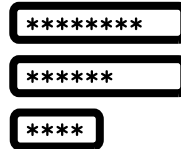

Change tracker

Alerts recruiter to changes made in the background check process

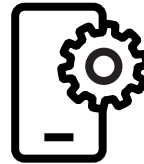

Status updates

Ensure a timely and transparent process

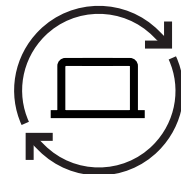

Data prepopulation

Reduces duplicate entry improving efficiency

Mobile optimized

Candidates can complete background check using their preferred device

Integration support and automatic updates

About KENTECH

KENTECH is the premier global background screening and workforce solutions provider. We bring clarity and confidence to vetting and hiring decisions through integrated, tailored solutions, driving a higher standard of accuracy in everything we do. Combining in-house talent, personalized services, and proprietary technology, we ensure the best candidate experience possible.
