

Tenstreet Integration for Drug & Health Screening

- **Electronic drug testing, physicals and alcohol testing through one mobile solution**
- **Access to KENTECH's national collection database – largest in the industry**
- **In-house Medical Review Officer (MRO) services and industry experts**
- **Integrated with background services, invoicing and reporting**

KENTECH and Tenstreet have enhanced our integrated ordering solution - in addition to the extensive background screening services already offered, employers can now order pre-employment drug tests, physical examinations and alcohol screening through Tenstreet's Pulse MD (a paperless registration system facilitated by a smart device).

Employers will have access to more than 10,000 electronically enabled collection sites, 5,000+ electronically enabled clinics, as well as thousands of clinics for non-electronically served areas. KENTECH's board-certified Medical Review Officers help ensure test results are reviewed to determine permissible use of controlled substances and to provide alerts if any safety concerns or additional testing are needed.

How does it work?

The Pulse MD integration with KENTECH will save employers time and effort by streamlining the drug and alcohol screening process. Employers will simply access Pulse MD in the Tenstreet dashboard, order their preferred testing or exam services, and choose an appropriate date and clinic location.

Once scheduled, the driver will receive a notification in the Driver Pulse application or an email will be sent if the driver does not have the application downloaded. The driver notification will include all pertinent information about the scheduled test or exam, including a digital barcode with collection site details, such as: clinic location, open hours, and whether truck parking is available.

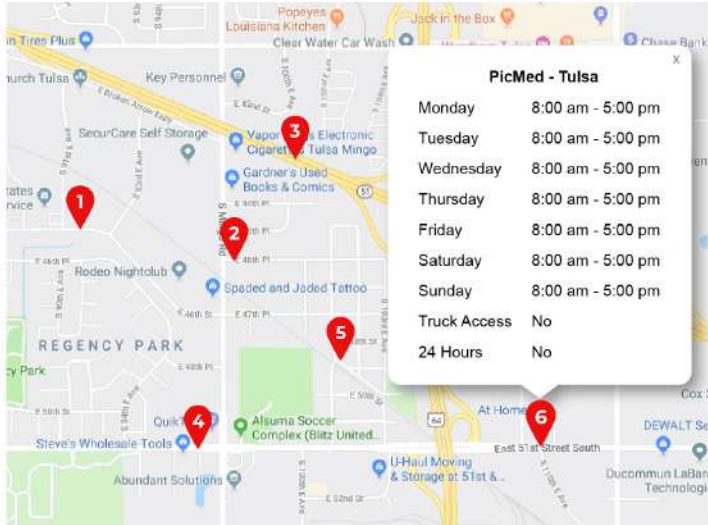

Please choose the type of screening to schedule and zip code and we'll return a list of locations

Screening Type:

Screening Reason:

Driver needs to take test by:

Zip Code: within miles

PicMed - Tulsa

Monday	8:00 am - 5:00 pm
Tuesday	8:00 am - 5:00 pm
Wednesday	8:00 am - 5:00 pm
Thursday	8:00 am - 5:00 pm
Friday	8:00 am - 5:00 pm
Saturday	8:00 am - 5:00 pm
Sunday	8:00 am - 5:00 pm
Truck Access	No
24 Hours	No

Tenstreet Integration for Drug & Health Screening

Employers will receive real-time status updates throughout the process when key milestones have been achieved, such as when the driver has viewed the barcode, when he/she arrives at the clinic and when the test results are returned.

Scheduled Screenings			
Name	Address	Type	Expiration Date
PicMed - Tulsa	11014 E 51ST ST TULSA, OK, 74146	Drug Screen - NDOT 5 panel	08/08/2019
08/08/2019 10:17:21 AM CST: Received at Lab (demo)			
07/31/2019 10:17:21 AM CST: Sent to Lab (demo)			
07/30/2019 10:17:29 AM CST: Notified Driver of Order			
07/30/2019 10:17:21 AM CST: Order Accepted by HireRight			

The results are automatically integrated into the Tenstreet platform from KENTECH for real-time reporting. The integration provides up-to-date and consistent information in both the Tenstreet and KENTECH systems and helps shorten the onboarding process for drivers.
